## PERIMETER E-SECURITY MICROSOFT EXCHANGE HOSTING SERVICES OVERVIEW

More and more, companies rely on email for their mission-critical communication. As the demand for and use of email increases, user expectations are also increasing. People expect rich, efficient and secure access to email, calendars, attachments, contacts, and more - regardless of location or type of device being used. Satisfying these requirements is beyond the scope of basic email systems so companies of all sizes are evaluating Enterprise-class solutions, only to discover that the technology is complex, the cost is high, and the risks are numerous. That is why more and more companies are turning to Perimeter for their messaging and collaboration needs.

## A SINGLE COMPARISON - WHY HOSTING MAKES SENSE

Implementation Requirements	Perimeter Solution	In-House Solution
<b>64-bit Hardware</b>	✓	Large initial capital outlay
<b>Software Licensing</b>	✓	Large initial capital outlay and yearly costs
<b>Ongoing H/W and S/W upgrades</b>	✓	Unpredictable annual expenses
<b>Expert Workforce for day-to-day management</b>	✓	Ongoing recruitment, training and retention costs
<b>Redundant Data Centers</b>	✓	Cost prohibitive for all but the largest enterprises
<b>Ongoing Maintenance</b>	✓	Diverts resources from strategic projects
<b>Anti-Virus and Anti-Spam</b>	✓	Adds cost and complexity to system
<b>Data Backups</b>	✓	Often deferred due to other priorities, introducing risk; requires off-site storage
<b>On Demand Scalability</b>	✓	Major effort with hard to predict cost
<b>Mobility Services</b>	✓	Major implementation, not cost effective for a handful of users
<b>Compliance Tools and Security Services</b>	✓	Complex technology; requires multiple vendors
<b>SAS 70 Type II</b>	✓	Must budget annually and divert resources to support the audit
<b>24x7x365 Support by Exchange Engineers</b>	✓	General pager-only support after hours

# HOSTED MICROSOFT® EXCHANGE SERVICES

## THE PERIMETER MICROSOFT EXCHANGE HOSTING SERVICE

Our customers enjoy all the benefits and features of an enterprise-class system, without any of the risks of managing an in-house system. Our Security Experts manage the hardware, software, upgrade/patch management for Exchange and the adjacent services in our four fully-redundant data centers. You control your user mailboxes, permissions, storage allocations and service selections. Your email will be fast, reliable and secure, allowing you to focus on your core business instead of the email infrastructure needed to support it.

## THE BENEFITS OF PERIMETER'S SERVICE

Key Features	Benefits
<b>Shared Calendar, Scheduling Features &amp; Task Management</b>	Easily manage your schedule and check co-worker availability to schedule meetings and events
<b>Tiers of Service and Flexible Storage</b>	Our tiered service and versatile storage models give you feature and budget flexibility by allowing you to subscribe to the right services for each person in your organization.
<b>Wireless Mobile Access</b>	Access your email, calendar, notes, company address book and Sharepoint files from your wireless hand-held device. We support Blackberry, Good Mobile Messaging and Active Sync.
<b>Powerful Web Access</b>	Outlook Web Access 2007 provides a rich email experience in any browser. Easily read email, check your calendar and review tasks
<b>Easy Administration</b>	Our web-based administration tool gives you control of your users, storage and service selection
